Section 1. Instructions to Teams	1-1
Alternative Generation Teams/Schedule for Generation of Preliminary Alternatives	
Format	
CALFED Alternative Generation - December 8, 1995	
Recipe for Generation of Preliminary Alternative	
Materials to be Used in Alternative Generation	
CALFED Bay-Delta Program Phone List	
Themes for Development of Additional Alternatives	
 Section 2. Alternatives from Habitat/Land Use/Water Quality Team	 2-1
CALFED Alternatives Development Summary of Team C Alternatives	
Alternative 101: Improving Water Quality by Treating Agricultural Wastewater	
Detailed List of Actions Selected	
Alternative 102: Improving Water Quality Primarily by Reducing Agricultural Wastewater	
Generation by Modifying Land Use Patterns and Practices	
Detailed List of Actions Selected	
Alternative 103: Improving Water Quality Primarily by Reducing the Volume of	
Agricultural Wastewater Generation and the Timing of Discharges to Coincide with	
High Instream Flows	
Detailed List of Actions Selected	
Alternative 104: Improving Water Quality Primarily by Treating Municipal Runoff and	
Municipal and Industrial Wastewater	
Detailed List of Actions Selected	
Alternative 105: Improving Water Quality Primarily by Reducing the Volume of Municipal	
and Industrial Wastewater Generation and the Timing of Wastewater and Runoff	
Discharges to Coincide with High Instream Flows	
Detailed List of Actions Selected	
Alternative 106: Improve Ecosystem Water Quality by Increasing Instream Flows to Dilute	
Contaminants Using Stored Water	
Detailed List of Actions Selected	
Preliminary Alternative 106	
Alternative 107: Improve the Water Quality for Delta Diversions by Increasing Instream	
Flows to Dilute Contaminants Using Stored Water	
Detailed List of Actions Selected	
Alternative 108: Improve Ecosystem Water Quality Primarily by Diluting or Avoiding	
Contaminants Dissolved in the Source Waters by Increasing Flows Through	

Reduction of Water Demands and Changing the Timing of Diversions	
Alternative 109: Improve Diversion and Service Area Water Quality Primarily by Diluting or Avoiding Contaminants Dissolved in the Source Waters by Increasing Flows Through Reduction of Water Demands and Changing the Timing of Diversions ..	
Alternative 110: Improve Water Quality with Land Use Management, Including Wetland and Riparian Management	
Detailed List of Actions Selected	
Alternative 111: Improve Water Quality with Land Use Management Using Watershed Best Management Practices	
Detailed List of Actions Selected	
Alternative 112: Improve Water Quality for Delta Diversions Through the Use of Physical Improvement in Delta Waterways	
Detailed List of Actions Selected	
Alternative 113: Improve Water Quality for Delta Ecosystem Through the Use of Physical Improvements in Delta Waterways	
Detailed List of Actions Selected	
Alternative 114: Improve Habitat Quality and Quantity Through Conversion of Existing Land Uses	
Preliminary Alternative 115: Improve Habitat Quality Without Converting Existing Land Use Patterns	
Detailed List of Actions	
Preliminary Alternative 116: Improve Habitat Quality and Quantity Through a Combination of Creating New Habitat by Converting Existing Land Uses and Preserving and Enhancing Existing Habitat	
Detailed List of Actions	
Preliminary Alternative WQ117: Improve Water Quality by Diluting Pollutants with Stored Water and Reduced Diversions, and Create Habitat by Restoring and Enhancing Existing Habitat Areas	
Detailed List of Actions	
Alternative 117: Old Version	
Preliminary Alternative WQ118: Diluting Pollutants and Creating New Habitat	
Alternative 118: Old Version	
Preliminary Alternative WQ119: Diluting Pollutants, Restoring Existing and Creating New Habitat	
Alternative 119: Old Version	
Detailed List of Actions Selected	
Preliminary Alternative WQ120: Construct Delta Water Quality Facilities and Restore Existing Habitat	
Preliminary Alternative WQ 20: Draft of 12/20/95	
Alternative 120: Original	
Preliminary Alternative WQ121: Construct Delta Water Quality Facilities, Create New Habitat	
Preliminary Alternative WQ 21: Draft of 12/20/95	
Alternative 121: Original	
Preliminary Alternative WQ122: Constructing Delta Water Quality Facilities, Restoring	

Existing and Creating New Habitat	
Preliminary Alternative WQ 22: Draft of 12/21/95	
Alternative 122: Original	
Preliminary Alternative WQ23: Managing Watersheds and Restoring Existing Habitat ..	
Detailed List of Actions Selected	
Alternative 123: Original	
Detailed List of Actions Selected	
Preliminary Alternative WQ124: Managing Watersheds and Creating New Habitat	
Alternative 124: Original	
Detailed List of Actions Selected	
Preliminary Alternative WQ125: Managing Watersheds and Restoring Existing and Creating New Habitat	
Alternative 125: Original	
Detailed List of Actions Selected	
Preliminary Alternative WQ126: Managing Discharges and Restoring Existing Habitat ..	
Detailed List of Actions: Revised	
Detailed List of Actions: Original	
Preliminary Alternative WQ 26: Draft 12/18/95	
Detailed List of Actions Selected	
Preliminary Alternative 126: Draft 12/15/95	
Preliminary Alternative WQ127: Managing Discharges and Creating New Habitat	
Detailed List of Actions	
Preliminary Alternative WQ128: Managing Discharges, Restoring Existing and Creating New Habitat	
Section 3. Alternatives from Water Supply Team	3-1
FAX Transmittal Sheet from Bookman-Edmonston Engineering, Inc. Regarding List of Alternatives	
Alternative 201: Reduce Competition for Water During Critical Periods by Reducing Demand - Export Area Only	
Alternative 202: Reduce Competition for Water During Critical Periods by Reducing Demand - In and Upstream of Delta Only	
Alternative 203: Reduce competition for Water During Critical Periods by Reducing Demand - In Export Area and In and Upstream of Delta	
Alternative 204: Adaptive Management of Delta Outflow for Transport and Estuarine habitat Conditions	
Alternative 205: Adaptive Management of Releases for Riverine Habitat and Fish Transport Conditions	
Alternative 206: Adaptive Management of Delta Outflow and Instream Flow Releases ..	
Alternative 207: Reduce Competition for Delta Supplies by Expanding Offstream Storage in Export Areas	
Alternative 208: Reduce Competition for Delta Supplies by Increasing Onstream Storage Capacities Upstream of the Delta	
Alternative 209: Reduce Competition for Delta Supplies by Converting Select Delta Islands to Storage Facilities	

Alternative 210: Reduce Competition for Water Supplies Through Enhanced Utilization of
Conjunctive Use Programs

Alternative 211: Reduce Competition for Delta Supplies by Increasing Storage Capacities
Throughout the System

Alternative 212: Reduce Competition for Water During Critical Periods by Increasing
Supply Availability - Relocate and Redesign Export Facilities

Alternative 213: Reduce Competition for Water During Critical Periods by Increasing
Supply Availability - Develop Eastside Isolated Transfer/Conveyance Facility ...

Alternative 214: Reduce competition for Water During Critical Periods by Increasing Supply
Availability - "Chain of Lakes" Concept

Alternative 215: Reduce Competition for Water During Critical Periods by Increasing
Supply Availability - Increase Export Pumping Capacity

Alternative 216: Reduce Competition for Water During Critical Periods by Increasing
Supply Availability - Provide Additional Downstream Flood Protection, Thereby
Relaxing Flood Protection Constraints on Reservoir Operations

Alternative 217: Reduce Competition for Water During Critical Periods by Reducing
Demand (title only, no text included)

Alternative 218: Reduce competition for Water During Critical Periods by Reducing
Demand - Reduce Demand North and South of the Delta and Provide for Storage in
the Delta

Alternative 219: Reduce competition for Water During Critical Periods by Reducing
Demand - Reduce Demand in Export Area and in and Upstream of Delta and
Increase Storage Upstream of Delta

Alternative 220: Delta Outflow and Instream Flow Management with Delta Storage

Alternative 221: Delta Outflow and Instream Flow Management with Relocated Export
Intakes

Alternative 222: Delta Outflow and Instream Flow Management with Delta Storage and
Relocated Export Intakes

Alternative 223: Reduce Competition for Delta Supplies by Expanding Offstream Storage
and Improving Through-Delta Conveyance - Increase Storage in the Export Area and
Develop an Isolated Conveyance Facility

Alternative 224: Reduce Competition for Delta Supplies by Expanding Offstream Storage
and Increasing the Delta Export Capacity

Alternative 225: Reduce Competition for Delta Supplies by Expanding Offstream Storage
and Increasing In-Delta Storage Capabilities

Alternative 226: Reduce Competition for Delta Supplies by Expanding Onstream Storage
and Improving Through-Delta Conveyance

Alternative 227: Reduce Competition for Delta Supplies by Expanding Offstream Storage
and Improving Through-Delta Conveyance

Alternative 228: Reduce Competition for Delta Supplies by Expanding Storage in All Areas
and Improving Through-Delta Conveyance - Increase Storage Through the System
and Develop an Isolated Conveyance Facility

Alternative 229: Reduce Competition for Delta Supplies by Expanding Storage in All Areas
and Improving Through-Delta Conveyance - Increase Storage Through the System
and Expand Pumping and Conveyance Capacities of Export Facilities

Alternative 230: Reduce Competition for Delta Water Supplies Through Increased Flood
Flow Use in the San Joaquin Valley

Section 4. Alternatives from Fisheries Team 4-1

CALFED - Transmittal Alternatives Submitted by the "A" Team Memo

Alternative Accounting - "A" Team

Alternative Generation for Fisheries Spreadsheet

Alternative 300: Enhancing Anadromous Fish Populations by Emphasizing Upstream
Actions that Increase Fish Productivity

Detailed List of Actions Selected

Alternative 301: Enhancing Anadromous Fish Populations by Emphasizing Delta Actions
That Increase Fish Productivity

Detailed List of Actions Selected

Alternative 302: Enhance Anadromous Fish Populations by Emphasizing Increasing
Hatchery Production and Upstream Habitat Improvements

Alternative 302 Actions

Preliminary Alternative 303: Enhance Anadromous Fish Populations by Emphasizing
Increasing Hatchery Production and In-Delta Habitat Improvements

Alternative 305: Enhance Anadromous Fish Populations by Emphasizing In-Delta Actions
That Reduce the Impacts of Diversions

Alternative 306: Improve Conditions for Winter-Run Chinook Salmon and Other
Anadromous Fish Species by Reducing the Impacts of Diversions Through the
Installation and Operation of Fish Screens and Barriers Upstream from the Delta .
Actions Selected

Alternative 307: Improve Conditions for Winter-Run Chinook Salmon and Other
Anadromous Fish Species by Reducing the Impacts of Diversions Through the
Installation and Operation of Fish Screens and Barriers within the Bay-Delta System
.....

Actions Selected

Alternative 308: Reduce Upstream Anadromous Fish Diversion Impacts and Enhanced
Outmigration Through the Bay-Delta Using Consolidated Diversions and Flow
Management

Annotated Action List

Alternative 309: Reduce Anadromous Fish Diversion impacts in the Delta and Enhance Fish
Passage Through the Bay-Delta Using Consolidated In-Delta Diversions and Flow
Management

Annotated Action List

Alternative 310: Enhancing Bay-Delta Native Fish Species by Emphasizing Upstream
Actions that Increase Fish Productivity

Detailed List of Actions Selected

Alternative 311: Enhancing Bay-Delta Native Fish Species by Emphasizing Delta Actions
that Increase Fish Productivity

Detailed List of Actions Selected

Alternative 313: Enhance Bay-Delta Native Fishes by Emphasizing Increasing Hatchery
Production and In-Delta Habitat Improvements

Alternative 313 Actions	
Alternative 315: Enhancing Bay-Delta Native Species Populations Emphasizing In-Delta Operation and Management Actions that Reduce the Impacts of Diversions	
Annotated Action List	
Alternative 317: Improve Conditions for Bay-Delta Native Fish Species by Reducing the Impacts of Diversions Through Installation and Operation of In-Delta Fish Screens and Barriers	
Actions Selected	
Alternative 319: Reduce Delta Diversion Impacts to Indigenous Bay-Delta Resident Fishery by Consolidated In-Delta Diversions and Flow Management	
Annotated Action List	
Alternative 320: Enhancing Anadromous Fish Populations by Emphasizing Upstream Actions That Increase Fish Productivity	
Detailed List of Actions Selected	
Alternative 321: Enhancing Anadromous Fish Populations by Emphasizing In-Delta Actions That Increase Fish Productivity	
Detailed List of Actions Selected	
Alternative 323: Enhance Anadromous and Bay-Delta Native Resident Fishes by Emphasizing Increasing hatchery Production and In-Delta Habitat Improvements Alternative 323 Actions	
Alternative 324: Enhancing Anadromous and Bay-Delta Native Species Populations Emphasizing Upstream Operation and Management Actions That Reduce the Impacts of Diversions	
Annotated Action List	
Alternative 325: Enhancing Anadromous and Bay-Delta Native Species Populations Emphasizing In-delta Operation and Management Actions That Reduce the Impacts of Diversions	
Annotated Action List	
Alternative 326: Improve Conditions for Anadromous and Bay-delta Native Fish Species by Reducing the Impacts of Diversion Through the Installation and Operation of Upstream Fish Screens and Barriers	
Actions Selected	
Alternative 327: Improve Conditions for Anadromous and Bay-Delta Native Fish Species by Reducing the Impacts of Diversion Through the Installation and Operation of In- Delta Fish Screens and Barriers	
Actions Selected	
Alternative 329: Reduce Delta Diversion Impacts to All Indigenous Fish by Consolidated In-Delta Diversions and Flow Management	
Annotated Action List	
Alternative 330: Enhance Anadromous Fish Populations by Increasing Natural and Hatchery Production	
Alternative 330 Actions	
Alternative 331: Enhance Bay-Delta Native Fish Populations by Increasing Natural and Hatchery Production	
Alternative 331 Actions	

Preliminary Alternative EQ-332: Enhance Fish Production	
Alternative 332 Actions	
Alternative 333: Reduce Anadromous Fish Diversion Impacts along All Migration Routes by Consolidating Diversions and Installing Barriers	
Annotated Action List	
Alternative 334: Reduce Bay-delta Resident Fishery Diversion Impacts by Consolidating Diversions and Installation of Barriers	
Annotated Action List	
Alternative 335: Reduce All Fish Diversion Impacts along All Critical Regions by Consolidating Diversions and Installing Barriers	
Annotated Action List	
Alternative 336: Reduce Anadromous Fishery Diversion Impacts by Consolidating Diversions and Operational Modifications	
Annotated Action List	
Alternative 337: Reduce Bay-Delta Resident Fishery Diversion Impacts by Consolidating Diversions and Operational Modifications	
Annotated Action List	
Alternative 338: Reduce All Fishery Diversion Impacts by Consolidating Diversions and Operational Modifications	
Annotated Action List	
CALFED Ten Alternatives Submitted For CALFED Staff Submittal December 20, 1995	
Preliminary Alternative EQ-340: Maximum Fish Populations	
Alternative 340 Actions	
Preliminary Alternative EQ-341: Maximize Native Fish Production	
Alternative 341 Actions	
Preliminary Alternative EQ-342: Maximize Bay-Delta Fish Populations	
Alternative 342 Actions	
Preliminary Alternative EQ-343: Modest Enhancement of Native Fish Populations	
Alternative 343 Actions	
Preliminary Alternative EQ-344: Maximum Diversion Impacts Reduction	
Alternative 344 Actions	
Preliminary Alternative EQ-345: Optimize Ecosystem Health	
Alternative 345 Actions	
Preliminary Alternative EQ-346: Isolate/Reduce Diversion Impacts	
Alternative 346 Actions	
Preliminary Alternative EQ-347: Improved Flows, Habitat, Quality, and Stability	
Alternative 347 Actions (included with text)	
Preliminary Alternative EQ-348: Improved Operations, Conveyance, and Storage	
Alternative 348 Actions	

Alternatives Dropped as Not Applicable

Alternative #

Notes

312	Dropped by T. Cannon - upstream actions n/a to Delta spp.
314	Dropped by D. Wagenet - see Alternative 324
316	Dropped - better coverage of topics in Alternative 326
318	Dropped by S. Robertson - upstream actions n/a/ to Delta spp.
328	Dropped by S. Robertson - upstream actions n/a to Delta spp.
339	No listing
